5. Select the location to store the file and click **Save** (*Figure 5 below*). Make a note of
    where you saved this file as you will need it when you install the application. To confirm
    the file was downloaded properly, you can navigate to the location and confirm setup.exe
    is visible (*Figure 6 below*). The eVCRS application has been downloaded to your
    machine and is now ready to be installed. To install, double click setup.exe and follow
   the on-screen instructions (*Figure 6 below*).
